Professional Summary

| Engineering Student | AI Enthusiast | Problem Solver
Passionate about arti cial intelligence and data science, I am currently deepening my knowledge in machine learning, databases, and algorithm development. Excited to apply my skills in AI research and development at Fusemachines.

Education

SEE   *Jan 2016 - Jan 2021*
Navodaya Shishu Sadan

+2   *Mar 2021 - Mar 2023*
KIST COLLEGE & SS

Bachelor in Computer Engineering   *Jan 2024 - Jan 2028*
Pulchowk Campus

Projects

Nepal Premiere League (NPL) Dataset 🔗

Created a comprehensive dataset of the Nepal Premier League (NPL), compiling match details, player rankings, scores, and other key statistics. This contribution re ects my analytical skills and passion for data-driven insights in sports analytics.

Kathmandu Air Quality Predicting & Forecasting 🔗

Developed the Nepal Premier League (NPL) dataset as part of a collaborative project for the Foundation of Data Science course. Conducted exploratory data analysis (EDA) and applied predictive modeling to analyze air quality (AQI) and forecast trends for Kathmandu. This project strengthened my skills in data analysis, machine learning, and teamwork.
This highlights both your technical and teamwork skills, making it a strong addition t

Electronic Store Website 🔗

Built a fully functional eCommerce platform using React for the frontend, with an admin panel to manage products and users. Integrated database management and implemented user authentication for secure transactions. This project enhanced my ability to structure large-scale applications and manage complex data interactions.

Skills

Python

C/C++

MERN

Javascript

Pandas, Numpy & Matplotlib
